|                           | SCR + ASC System + Mild EGR                   |

## DUAL TYRE LIFT AXLE WITH SMART LIFT LOGIC

Smart Lift Logic is a feature incorporated in 12.5T lift axle which enables upward/downward movement of lift by synchronisation of signals. The movement of lift axle depends on:

- Load carried by the vehicle
- Turns negotiated by vehicle on Plain or Hilly terrains

## Applications

MAHINDRA AASHRAY MAKES EVERY MOMENT CAREFREE.

Note: In view of our policy of continuously improving our products, we reserve the right to alter specifications or design without prior notice and without liability. Illustrations do not necessarily show the vehicle in its standard form. Accessories shown are not part of the standard equipment. Colour shades shown may vary. E. & O.E.
